## Duron Vineyard Wire Versus Heavy Galvanised Wires

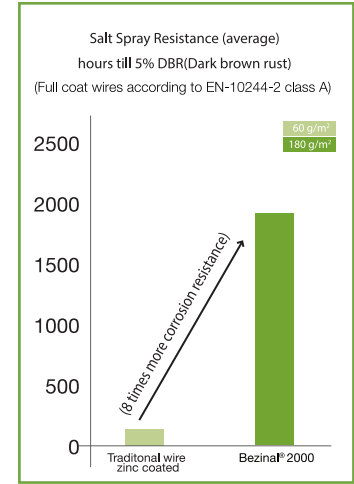

All our wires feature the advanced Bezinal® 2000 coating. This exclusive zinc-aluminum alloy provides superior resistance to atmospheric corrosion and chemicals. Salt-spray test proved that Bezinal® 2000 wires last from 4 upto 8 times more than heavily galvanized wires, and twice the time compared to standard zinc-aluminum coated wires.

### Packaging

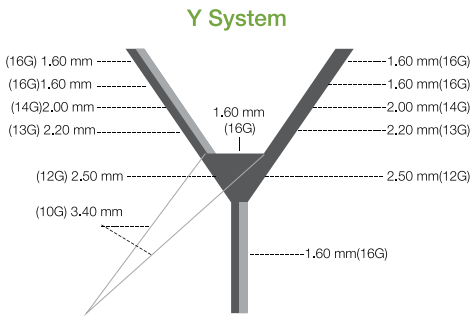

Duron vineyard wire is delivered per running meter, on user-friendly coils.
